

Creation of Indosuez Fund Solutions, Indosuez Wealth Management's center of expertise and services dedicated to investment funds.

Indosuez Fund Solutions is the result of the merger between the Luxembourg asset management companies Indosuez Wealth Management and Degroof Petercam*. This merger is part of the acquisition in June 2024 of the Belgian bank Degroof Petercam by Indosuez, the wealth management subsidiary of the Crédit Agricole group.

Drawing on the expertise and complementary strengths of these two entities, Indosuez Fund Solutions is positioned as Indosuez Wealth Management's center of expertise and services dedicated to investment funds. Its mission is to offer customers a "one-stop-shop" solution for the creation, domiciliation, administration and supervision of investment funds.

An integrated, modular, customer-centric offering

Indosuez Fund Solutions' offering is integrated and modular, tailored to the profile and needs of its clients such as: high net worth individuals, family offices and professionals' investors. It covers the entire value chain of services, either directly or in collaboration with the Crédit Agricole Group's specialized entities. In particular, Indosuez Fund Solutions provides services to a wide range of collective or dedicated funds invested in all asset classes, from public to unlisted markets.

Belonging to the Crédit Agricole Group strengthens its ability to offer customers innovative, solid and high-performance solutions. Capitalizing on the Group's expertise, Indosuez Fund Solutions relies on a strategic partnership with CACEIS, Crédit Agricole's subsidiary specializing in financial services for institutional investors, in Luxembourg and Belgium. CACEIS provides associated custodian services and brings its fund administration expertise and resources to Indosuez Fund Solutions.
